**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

Ellenborough is a great five part Colonial Revival Mansion built in 1928, with central block built of brick and hyphens and wings of frame covered with beaded weatherboard.

The approach facade is five bays long with three bay portico with fluted Ionic columns supporting a full pediment with lunette window.

Flemish bond is used on all walls, above the windows are jack arches  $1\frac{1}{2}$  bricks in length. There are 12/12 sash and paneled shutters. Two chimneys rise within each gable end.

The three bay west hyphen is two storys with gallery across its south facade. The wing is two bays wide with gable facing south. It houses a garage with doors on the west side.

On the opposite side, the hyphen has a gambrel roof and the wing is about the same size and configuration as the garage end, except there is a chimney in the center of the south gable wall. There is also an enclosed porch on the east side.

The north facade has a simpler facade, with pedimented architrave around the front door and a grass terrace. There are three dormers on the roof with details comparable to the Federal houses in Easton.

STATEMENT OF SIGNIFICANCE

Ellenborough is a superior composition and fine late example of the Colonial Revival, bordering upon strict academic principals of restoration engendered by the restorations of Williamsburg.

It is the site of an earlier structure. A photo in the possession of Mrs. Cecil, of Landaff, shows a mid-19th century dwelling similar to Ingleside, in the power part of the County.
